Are you aware there are Federal Grants which you may be eligible for to assist you in providing adult fitness tracks?

Megatoy's 'Move' will inspire and create unique open spaces for Australian communities. Combining healthy lifestyles and quality equipment, the Megatoy design team have delivered innovative and Australian made solutions that customers have come to expect.

Move – Outdoor Fitness Systems

Australian made, AS 4685 compliant, Engineered Certified, high quality Outdoor Gym Equipment. Built to withstand Aussie conditions with genuine warranty and back up service. Many imports have disappointed the market with low grade non compliant equipment causing confusion and hesitation to purchasers who wish to provide the community with a healthy lifestyle opportunity. Move was released at CIVENEX in May 09 and won "Highly Commended Best New Product".

If you would like to learn more about this great new range, simply fax, email or call to request a multi media and/or hardcopy **information pack containing DWG's, Jpeg's, PDF's and written specifications**. These detail minimum use zones, fall heights, capacity and model numbers for easy specification.

Our priority is to offer ongoing support and personalised service from the outset to the completion of your projects and we would be delighted to discuss your design options further.

Yours Sincerely,

Michael Vella
GENERAL MANAGER
